PERSONAL PROJECTS

- Learning Log - A website used to track learning progress for users.
 - Made with Python with the help of Django Framework on the backend
 - On the frontend, the site was built with HTML and styled with Bootstrap 4
 - Deployed with Heroku using Git CLI command
 - The database used for Learning Log project is SQLite which was handled by Django
 - This website contains a registration and an authentication system where the users can log in their learning activity using entries which are grouped by topics.
- Baked Delight - <https://pedantic-easley-5a09df.netlify.app/>
 - It's a presentation site of a bakery which was built using HTML, CSS and JavaScript
 - Additionally, the website has a responsive design for all screen sizes which was made with the help of Media Query
 - Deployed with Netlify using Git Command
- Story Time
